NOTE-This is a story that we want YOU to read. It will only take you a few moments, and it may affect your whole

A Little Ordinary.

It is a little unusual to start an advertisement in Out of the this way, but this is an unusual advertisement, and has to do with an ur proposition: This Company-The

Mine in the famous Cracker Creek District in Eastern Oregon, closely sall ining the North Pole, The Euroka and Excelsior, The Golconda, and others of those wonderful mines that are causing the eyes of the world to be turned towards that part of Oregon, where only a few days ago in one of the above mines ore was taken out that arrayed \$50,000 in gold to the ton! The dis-This mine that we own

What han a yein extending for Cable Says over three thousand feet

He Knews. on our property that vaon forty feet. Warren Cable, Mining Enthe bla mines in the Cracker Creek dis said in a report that he made for us, "Your mine-The Cracker-Oregon will un loubtedly prove to be a richer one than any of the rest in the district." Cable is a man who doesn't enthus over a property unless

We are going to run tunnels, build a mill and treat our ore on the ground. It takes money to do these things.

None of the men who are at the head of the company are millionaires. But if you will look them up you will find that they stand well in their home towns, and are well rated in the commercial agencies.

None of them draw salaries from this company.

Stack Goes Up June 18th.

Stock is being sold to de velop the mine, and the price at present is 19c. Par value \$1.00, fully paid App. nonassessable, non forfeitable and no personal liability.

The issue of 10-cent stock has been sold so quickly that only a little remains at that

On June 18th the Price Will be Advanced to 15c a Share.

This is the gist of the story. It will not be possible to go into particulars here us to what we have, and what the future of will be. Those are things that belong to the prospectus and are fully and completely set forth in our book of 33 pages which we want to send to you

We Want to Send You That Prospectus First.

Singed Cats Dread

Lots of people are apt to point to this one and that. that haven't panned out.

Never mind. Because there have been doesn't follow that there are to be no new dness houses started. Did you know that the ratio of mines that are successful is something like 90 per cent? Mining is like any other form of business, it requires first of all the property and then the men to

INVESTIGATION SLIP.

To the Oregon Development Co., Odd Fellows' Bldg., St. Louis, Mo.: I desire to take advantage of your effer to investigate the Cracker-Oregon Mine, and if found as represented am to buy my shares of stock at the rate of 10c a share.

This inquiry does not bind me in any way to purchase stock. This offer to good until June 18, 1902.

AN INTERESTING SCHOOLS THAT HAVE BEEN ESTABLISHED BY THE HOME MISSIONARY SOCIETY.

WRITTEN FOR THE SUNDAY REPUBLIC. It has been justly stated that the church is the greatest educational institution in the world. One of the first, if not the very first, to enter the field of education in this country was the Congregational Church. which has given to the United States some of the finest institutions it contains. One of the foremost works of Congregationalism is the fostering of education, which it does through the Home Missionary Society and the Education Society.

The Missionary Society's function is to open up the country and plant missions and churches where none had existed before, pointing out the need and creating the desire for education, Some of the men who have done the greatest work along this line Lots of people are apt to for Congregationalism are Jeremian Por-look askance at the Gold ter, "who preached the first sermon ever heard on the western shore of Lake Michigan"; Marcus Whitman, who saved to us that haven't panned out. Because there have been in men who have failed, it that there are to be no new as started. Did you know that aines that are successful is 90 per cent? Mining is like in of business, it requires first perty and then the men to buy stock in this entering prise it will not pay you dividends to-morrow, nor this year, but given about eighteen months, and we promise you returns that ay your present outlay. We are making a fair and busical when we say Washington and Oregon by a journey across

of more than 8.000 Christian ministers, at an expense of \$2.569,000.

About \$500,000 has been put into the education of ministers now living, and every year from \$25,000 to \$30,000 is given for the education of ministerial students now in colleges. This work has been far-reaching and powerful in results. Without this aid probably 4.000 ministers, among whom are many prominent preachers and missionaries, would never have found their way into the Christian ministry. Thirty colleges, among which are some of the best known in the East and West, have been sustained until they have become practically self-supporting, while others are being raised to that position. The building up of still other colleges needed for the work is contemplated. In this work of assisting colleges, the Congregational Education Society has raised \$2.500,000.

Necessity of Academics.

Investigation South the work is contemplated. In this work of assisting colleges, the Congregational Education Society has raised \$2.40,000. And the work is contemplated. In this work of assisting colleges, the Congregational Education Society has raised \$2.40,000. Accessity of Academies. In Wisconsin, Minnesota, Nebraska, Kansan, Missouri, Dakota, Colorado, Utah and Washington are numerous schools modeled after the old New England academy, which sive to hake the price 10 cents pending your intestigations. But you must write to us before June 18 th.

In order to find out what this paper will of or us, we shall ask you to fill out the lip at the bottom of the ad, and send it in your name and address written upon to us.

This is a little thing to do. But it will be the Real first step taken towards Gold Mine. FOR WE HAVE A GOLD INPETTAT WILL PROVE A BONANZA. For stand ready to prove up our claims henever given the opportunity. Cut out at dip and send it in. That will only set you the price of a stamp.

auspices and New England influences centers in Drury College at Springfield. Drury receives its supply of students mostly from the Congregational academies, which, in that part of the Southwest number four. Graduates of the colleged which was organized in 1873, have been sent into all the professions, as well as into different lines of business, many standing hish and holding positions of trust and importance in the communities where they live. The larger proportion of the graduates of Drury are equipped for teaching, and they are to be found in that capacity in many of the principal colleges and universities of the country. Five per cent of the whole number of graduates are now, or have been, professors in colleges, and 20 per cent are principals or teachers in high schools of academies. Of the male graduates, 25 per cent have entered the ministry, 14 per cent have entered the ministry, 14 per cent have studied law, 11 per cent have studied medicine, and 14 per cent engaged in business pursuits. One graduate, Captain Jesse Mayes, has become an officer in the regular army.

Graduates of the best colleges have, from

Graduates of the best colleges have, from its inception, been secured as instructors for Drury. Of these, three have been called back to the faculty of Yale, two of Dartmouth, one to Beloit, and one to Washington University. While not sectarian in any sense of the word, Drury is a Christian college, it is the alm of President Fuller to provide its students with a thorough and liberal education equal to that of the best institutions of the country. Pat of the superb equipment of the college is a library that is the largest in Missouri, outside of St. Louis and Kansas City. One institution of the college, which is coeducational, is that co-operative dining hall, where good meals are furnished the students at the extremely low cost of \$1.7a a week. This reasonable price is rendered possible by co-operative work and economical buying and cooking.

School's Latest Endowmen.

School's Latest Endowmen. The college has received a number of en-lowments, the most recent being that from downents, the most recent being that from Mr. E. A. Goodnow of Worcester, Mass., of \$15,000, the income from which is to be devoted to the assistance of worthy young women in securing an education. In 1893 a fund for the endowment of the lady principal's chair was started as the result of the suggestion of the Reverend Doctor Henry Hopkins to the Woman's Home Missionary Union of Missouri, Already almost \$17.900 of the \$25,000 almed for has been raised by the Congregational churches of Missouri, which are also giving freely for other branches of work at Drury, in addition to the support of the several academies. Doc-

tor D. K. Pearsons, the well-known philan-thropist of Chicago, has given the college \$400,000 in all at different times. The opinion of Doctor Pearsons, who has contributed more than \$2,000,000 to the support of Con-gregational colleges in the West, in regard to Drury may be of interest. He says. "I am inclined to think that Drury College holds just now the most strategic point for education in this country."

of the three divine institutions—the family, the state and the church—or which America rests for greatness and strength. I shall be glad, indeed, if any whom God blosses with means will give generous all to the work so greatly needed of enlarging and strengthening the institution.

The year just closed, the twenty-ninth of its existence, has been the most prosperous in the history of Drury, despite the severe drought of last summer and autumn. The attendance has been large, the students enrolled numbering 239. A class of twelve graduated at the June commencement.

From June II until August 1, during the traduated at the June commencement.
From June II until August I, during the vacation of the reguair college course, a summer school is held at Drury. Thirteen courses are taught by a corps of competent instructors.

courses are taught by a corps of competent instructors.

Under a recently enacted State law, grades made in the summer terms of State educational institutions and such other summer schools as bay be approved by the State Board of Education shall be accepted by the State Board of Education shall be accepted by the State Board of Education shall be accepted by the State Board. This summer school comes under that head. Last year there were a large number of young reople preparing themselves for the position of teachers. This year another large class has entered.

The academies, about which brief mention has been made are: Kidder Institute, at Kidder, Mo; Iberla Academy, at Iberia, Mo, Noble Academy, at Willow Springs, Mo, and Rogers Academy, at Rogers, Ark. Of these, Kidder Institute, forty-three miles cast of St. Joseph, is the only one of the schools north of the Missouri River in this State, Kidder is settled chiefly by New England people, and the institute is derominated "A New England academy out West" Kidder Institute matriculates with England people, and the institute is de-rominated "A New England academy out West" Kidder Institute matriculates with the State University of Missouri, Drury, Oberlin, Ohio, Wesleyan University and other first grade colleges.

f the "Ingoldsby Legenda," who described of the "Ingoldsby Legenda," who described the ceremony and its spectators in Irish dialect verse, devoted a whole line and a half to her. "That swate charmer the familie heiress, M ss Anja-ly Courts," as he called her, for she was famous then merely on accosing of her fortune of \$19,700,000. Now she is one of the best-known and beer-loved women in England on account of the use she has made of that fortune.

Respected by Queen Victoria. Queen Alexandra, when Princess of Wales, said that she considered the Baroness Burdent-Coutts the most remarkable woman in England after her mother-in-law Queen Victoria, and King Edward's consort has seen enough remarkable women to be somewhat of a judge of them. That Queen Victoria herself had a high respect for the Baroness was proved by her action in confering a peerage upon her, a mark of favor which the late Queen rarely bestowed upon a woman.

riog a peerage upon hei, a mark of favor which the late Queen rarely beatowed upon a woman.

The title came in recognition of "Miss Eurdett-Coutts's" extensive work for charity. That work had consisted in alleviating misery, both human and animal, all over the country. It had ircluded the formation of many charits ie organizations, some of whose names and aims are world-famous, such as the societies for the prevention-of cruelty to children and to animals. It included the building of model ewellings for many poor people, the founding of many schools, the aiding of many struggling churches.

The immense fortune with has enabled the Baroness to follow out her charitable inclinations came to her by inheritance. She was born "Miss Burdett," but her grandfather, Thomas Coutts, in bequeathing to her the fortune he had piled up as a banker, requested that she take the name of Coutts. Luckily for her as partner in such an important institution as Coutts's Bank, the Baroness always has had a most unfeminine head for figures—never has she been puzzled by even the most intricate balance sheet, and she has seen to it that each of the benevolent societies which her money has founded has been run on strict husiness vrinciples.

Married Her Private Secretary.

Married Her Private Secretary.

Married Her Private Secretary.

Married Her Private Secretary.

What caused the Baroness to get talked about even more than she had been as the result of any of her good deeds, however, was her marriage at the age of 67 to a man of 30-odd, William Ashmead Bartlett. formerly of New Brunswick, N. J. He had been her private secretary for several years, and is now not unknown to fame as Mr. Burdett-Coutts, member of Parliament for Westminster, the Baroness's husband having assumed her name at her request. Queen Victoria was mightly displeased when she heard of the marriage, but there has neverbeen a suggestion of its having proved anything but happy.

Many impertant and interesting folk have been among the acquaintances of the Baroness. As a child she took the eye of George IV several times, and she was one of the favorites of William IV. She and Charles Dickens were intimate friends. No sooner had she received her mighty legacy than she was flooded with begging letters and appeals from every sort of charitable organization, but she wanted to organize her charities herself, so she went for Dickens and made him take her through the most wretched quarters of the East End, the dwellers in which soon reaped the benefits of the "White King of She James Brocke, the "White King of

"slumming."
Sir James Brocke, the "White King of Borneo," was a friend of the Baroness, as was Livingston, the explorer, and "Chinese" Gordon, who received his last letters and papers from England through the agency of a Morocco merchant whom the Baroness paid to penetrate to Khartoum in disguise.

Often Attends the Theater.

The Bayoness is a tall, slender woman, who carries her years without any effort. Her favorite pastime always has been theater-going, and for years she has been among the most constant "first-nighters" of London. She has two London houses one at the corner of Stratton street and Piccadilly, in the fashiomable West End; the other a sort of bungalow standing in the center of a well-kept park of several acres in the suburbs, not far from Hampstead Heath. In spite of, her age the Bayoness still takes just as keen an interest in the welfare of "umble people and animals as ever she did, and never thinks it to much trouble to preside at a meeting of flower-girls or to present the prizes at a parade of costers' donkeys and ponies. Often Attends the Theater.

Strange Adventures of Lawrence University Student Read Like Romance.

SERVED BEFORE THE MAST.

Supports His Wife, Baby and Himself While He Goes Through College Preparatory to Entering Bible Institute.

Appleton, Wis., June 14.-The varied ad-ventures of Charles K. McGinnis, a memher of the senior class of Lawrence Univer sity here, read like a romance. Born in 1865 on Prince Edward's Island.

he was apprenticed at the age of 12 to his uncle, who treated him so cruelly that, at the age of 16, he ran away to sea, serving three years before the mast and one year as second mate on merchantmen vessels. He has undergone the horrors of shipwreck four times. On the coast of Maine he was one of five saved from a crew of 128. He was blown from the deck of a ship dur-He was blown from the deck of a ship during a typhoon on the Atlantic Ocean and forced to cling to a piace of cordage for two days until rescued. He was in another wreck on the coast of Maine, near Machlasport, at which time many lives were lest. Resolving never to sail again on salt water. McCinnis made his way on freight trains to Chicago, where he obtained employment trucking freight on the docks. Upon being asked by his fellow-workmen if he was a member of the union, and giving a negative reply, he was pronounced a "scab" and thrown into the lake.

Worked in Quarry.

Morked in Quarry.

Making his way to Dudley, Ia., he secured employment in a stone quarry, where, engaging in an altercation with one of his fellow-laborers, he felled him to the ground with a pick and made a hasty escape, thinking he had committed murder.

For some time McGinnis was employed in bridge building in St. Joseph, Mo., but renounced this dangerous vocation after a fall from a dizzy height, when he was picked up for dead.

for dead.

When he recovered the young adventurer obtained a position with the National W. C. T. U. as a special detective, his territory being the State of Kansas. For eight months he instituted raids on various resorts, until one Sunday evening he succumbed to the temptation inspired by an open barrel of whisky and became intoxicated.

open barrel of the temptation inspired by an open barrel of whisky and became intoxicated.

Without any explanation to the W. C. T. II. officials he became a wanderer once more turning up in the State of Montana in 1887, where he prospected for gold for four years. His efforts were finally crowned with zome degree of success, and he was able to sell one of his claims for \$3,600.

On the night that he sold his claim he sat in a poker game in a saloon in Butte City, and, at the expiration of three hours, had lost every cent of his money.

Crazed by his losses almost to the point of committing suicide. McGinnis chanced into a salvation Army meeting and was converted. As he was more than ordinarily intelligent, he was elected a captain in the army, his first command being at the barracks at Portland, Ore. For four years he traveled all over the South and West.

Accepted Methodist Pastorate.

Mr. McGinnis entered Lawrence Universi-

Accepted Methodist Pastorate.

Mr. McGinnis entered Lawrence University in 1885, coming to Appleton, accompanied by a wife and child, and with less than 1896 in his pocket. During the first four years of his course he supported himself and family by manual labor.

Three years ago he accepted the pastorate of a Methodist Church in a near-by village, attending school during the week and accomplishing his pastoral duties on Sunday.

415 N. 4th St. Two years ago he entered the Wisconsin Conference of the Methodist Episcopa Two years ago he entered the wisconsin Conference of the Methodist Episcopal Church, and was ordained a dencon.

While serving before the mast on merchantment plying on the Atlantic Ocean, McGinnis, like the majority of scamen, was twicood on his chest, arms and hands. A ship in full sail was pricked on his chest and the skin on his arms was decorated with stars, anchors and various insignia. He recently became ashamed of these remembrances of his former rough life and was operated upon by a local physician, and an inch or so of the decorated epidermise removed every few days.

This sailor, stonecutter, bridge builder, detective, gold miner, salvationist, student and minister will enter the Garrett Biblical Institute at Evansion next year, and upon completing the course expects to become a Methodist minister in the Wisconsin Conference.

HE DECLINED TO BOW. American Passed King Without Courtesving.

Some years ago Representative Williams of Mississippi made a tour of Europe, In Rome he ran across a fellow-American who was being beset by a mob because he had inadvertently given a street vendor less money than was due for something he had purchased. Mr. Williams extricated his fellow-countryman from difficulty, and affellow-countryman from difficulty, and arter that they were great friends, seeing the sights together.

On the last day of their stay in Rome they went riding. Presently they mat a magnificent earriage, the occupant of which courteously bowed to the two Americans. Mr. Williams touched his hat, but his friend sat as stiff as a ramfod.

"Why didn't you bow" inquired Mr. Williams. "That man was King Victor Emmanuel."

"I know it." was the reply, "but I ain't

"I know it." was the reply, "but I ain't lowering to kings."

Are You a Man?

With No Back Pains. No Nervousness. No Waste of Power, No Loss of Ambition.

But with plenty of life and energy and the vigor of youth. Such you can be if you wear DR. McLAUGHLIN'S ELECTRIC BELT.

To be strong and manly is the aim of every young man, and yet how many we find who are wasting the vitality and strength which nature gives them. Instead of developing into the strong, vigorous, manly young fellows that nature intended them to be, they find themselves weak, stunted, and despondent -no ambition to do anything. They struggle aimlessly along, sooner or later to become victims of that dread disease, nervous debility; their finer sensi-

bilities blunted and their nerves shattered, A DIFFERENCE

Between this class of men and the strong, manly young fellow who is in full pos the gift of manhood that nature bestowed upon him-full of life, vim and vigor that should be characteristic of every young man. He is the envy of his fellow men. His superiority is evident in his every action, because he feels the confidence and strength of his manhood. Do you wonder why some young men yearn for the power that they have wasted? "To err is human," and that is why nature has provided a remedy for the evils that come to the young fellow who has disobeyed the laws of nature. There is a lack of electrical force in the nerves, and this can be restored by supplying electricity to the system. To do this, and do it thoroughly, is what has given to

COME IN Most of the belts that I am selling now are to people who have been urged to use it by friends who have been been cured. It is curing your neighbors and will cure you. Try it.
